Notes

The background of the entire page is a photograph of several white LED light bulbs. Each bulb is placed on top of a white daisy flower. The bulbs are arranged in a slightly diagonal line from the top left towards the top right. The background is a soft-focus green field. A semi-transparent grey box is overlaid on the left side of the image, containing text. At the bottom of the page, there are blue and white geometric shapes forming a stylized arrow pointing upwards and to the right.

LED's: Are They Really Better for the Environment?

Yes...to protect the Earth, it's important to find a healthy balance between using energy-efficient LED lights and knowing when to turn them off.
